

VNIVERSVM

THIS IS THE THIRD EDITION OF UNIVERSUM. A NOVEL SERIES OF COSMOLOGY MEETINGS WHOSE MAIN GOAL IS TO GATHER MEMBERS OF THE ACTIVE ITALIAN COSMOLOGY COMMUNITY. BESIDES DISCUSSING OUR MANY SCIENTIFIC ACTIVITIES, THE AIM OF THIS SERIES OF ENCOUNTERS IS ALSO TO FOSTER COLLABORATIONS AMONGST US AND TO DISCUSS CRUCIAL TOPICS THAT INVOLVE THE COMMUNITY AT LARGE. UNIVERSUM IS A SHORT MEETING, TAKING PLACE EVERY YEAR IN A DIFFERENT UNIVERSITY OR RESEARCH CENTRE ALL AROUND ITALY. FEATURING SHORT TALKS FROM PHD STUDENTS AND EARLY-CAREER POST-DOCS, COLLABORATIVE TALKS TO UPDATE ON AN EXTENDED RESEARCH LINE, AND DISCUSSION SESSIONS LEAD BY REFERENCE SENIOR SCIENTISTS IN VARIOUS FIELDS OF RESEARCH IN COSMOLOGY.
